

Bruce McCandless:

Some of the items are high dollar. The administrator Barbie Moore said that they will be writing grants for those items but it is so much easier to get the grants if they can show that other groups are willing to make donations to the project- so even a small donation toward the project will help them with the grant requests.

1. Outdoor rock fountain and landscape upgrade. The fountain is funded-they are seeking donations for landscape upgrade such as flowers, plants, etc.
2. Scandent--this is a product/service that allows them to attach a tracker to resident's items that are easily lost-such as glasses, dentures, hearing aids, cell phones, wallets, etc. It has alerts at each door to beep items from getting thrown away or stolen. They can use a hand held device to locate a lost item. Total cost \$25,000
3. Purchase a pre-fabricated shed for Emergency Storage items \$20,000 total cost
4. New overhead paging system Cost unknown--obtaining quotes
5. They always need clothing items or donations to the resident council. Some of the things the resident council wants to do is take a trip to see the Rockies; go to Cripple Creek; cater a meal in or go to a restaurant to eat; or new laptops for residents; new TV and sound bars; flowers and plants for their gardens or whatever else they decide they want to do.

ECHCS Denver VA Hospital

How you can help

our Veterans in Colorado?

Would a Unit or District like to apply for a Grant from the National Auxiliary to support the larger items?

Unit One and 209 have applied for these grants and may be able to give you support in filling out the forms.
